

Parish and Township plan numbers

This is a complete list of Victorian parishes and townships, together with plan numbers assigned by the Victorian Department of Crown Lands and Survey at some point between 1950 and 1970. The list has been reproduced from the [Vicmap Reference Tables](#) on the Department of Sustainability and Environment's land information website.

Browse the list or use a keyword search to identify the plan number/s for a location. The plans are listed alphabetically. Townships and parishes are inter-sorted on the list. Some entries refer to locations within parishes or townships; these entries may be duplicated.

The plan number can be used to locate copies of plans that PROV holds in the series [VPRS 16171 Regional Land Office Plans Digitised Reference Set](#). For example, using the [Search within a Series](#) page on the PROV online catalogue with series number '16171' and the text '5030' will return the specific plans relating to the township of Ballarat. In this case, searching for 'Ballaarat' by name will return all the plans in the Ballarat land district, covering much of central and western Victoria.

PROV does not hold copies of plans for the locations highlighted in **pale yellow** below. In most cases this is because parish-level plans were not created for areas such as national parks, where there were few land transactions to record. Plans showing these locations can be downloaded from the [landata website](#) under the section 'Central Plan Office Records'.
